We recommend 3-5 wt. fly rods and lightweight 5-6X tippet for your dry fly presentations. On windy days you may prefer sinking line, however small non-toxic bead shot works good for sinking nymphs. Nets and waders are usually unnecessary bulk, however if you have lightweight packable waders, you are welcome to bring them. On fly-fishing trips we may have float tubes with neoprene waders available for the group to share if desired.

**ALL FISHING RODS MUST BE IN BREAKDOWN PACKABLE ROD CASES.  
 ALL FLY BOXES AND ASSESSORIES SHOULD BE SMALL AND COMPACT**
